ABOUT ME

I am a third year computer engineering student at Ankara University. I develop games for about 1 year. I do my job with love, I enjoy the combination of software and visuals. I like to create different simulations and doing experiments by myself.

WORK EXPERIENCE

Programmer Upwork

I reimplemented a 2D platformer game in unity.

Translator Upwork

I translated a document about COVID-19 written by scientists from English to Turkish.

EDUCATION AND TRAINING

Computer Engineering Ankara University

Address Ankara Üniversitesi Gölbaşı Kampüsü, Ankara, Turkey │ **Final grade** 3.54

26/11/2022 – CURRENT

Game Developer Trainee Google Game and Application Academy

Website https://oyunveuygulamaakademisi.com/

LANGUAGE SKILLS

MOTHER TONGUE(S): Turkish

Other language(s):

English

Listening	Reading	Spoken production	Spoken interaction	Writing
C1	C1	B1	B1	B2

DIGITAL SKILLS

GAME DEVELOPMENT

Game Development (Unity Game Engine - C#) │ C Programming Languages │ Adobe (Adobe Photoshop, Adobe Illustrator, Adobe │ Blender (3D)

VERSION CONTROL TECHNOLOGIES

Github │ Plastic SCM

OTHERS

React (front-end) │ HTML CSS JavaScript │ NodeJS │ Canvas JS

ADDITIONAL INFORMATION

Projects

Rocket Magnet I have developed an android game with Unity game engine. It was my biggest project that I handle alone. I have succesfully published it on Google Play Store.

Link https://play.google.com/store/apps/details?id=com.Puding.Magnetica&hl=tr&gl=US

Hit The Lines I am developed another android game called Hit The Lines. It is available on Google Play Store.

Organisational skills

- **University Society** I gave a lesson on basic front-end design to a society at our university called YAZGİT. I was a board member of the web development group in this society.

- **University Society** I am an active member of the Physics Development Society (FIZGET). I was one of the organisators of Sci-Tech (an event to make everyone love physics) event.
